IEEE COLUMBUS PES MEETING

IEEE PES NOVEMBER 12, 2008 PROGRAM

Date: Wednesday, November 12, 2008 **Refreshments:** 5:30 to 6:00 pm
Meeting: 6:00 to 7:00 pm **Earn one CPD**
Location: Buckeye Power, Inc., 6677 Busch Blvd., Columbus, Ohio 43229

Abstract: Buckeye Power, Inc. is a generation/transmission cooperative for 24 distribution cooperatives in Ohio. Buckeye Power has a load management system which curtails electric water heaters, electric heat, air conditioning, etc. during peak load situations. The Buckeye computer center also monitors real time load at 230+ delivery points via a satellite-based system.

The tour will include an explanation of the computer system associated with the load management function.

Presenter: Mr. Herb Caldwell

Herb Caldwell is the Director of Load Management, Communications and Computers at Buckeye Power, Inc., a generation and transmission cooperative that operates in Ohio to provide wholesale electric power to its 25 distribution members. Over the past thirty years, he has been responsible for the development, construction and operation of Buckeye's Load Management Program, Buckeye's bi-directional Satellite Communications Network for real-time load monitoring at 342 delivery points and various other automation projects.

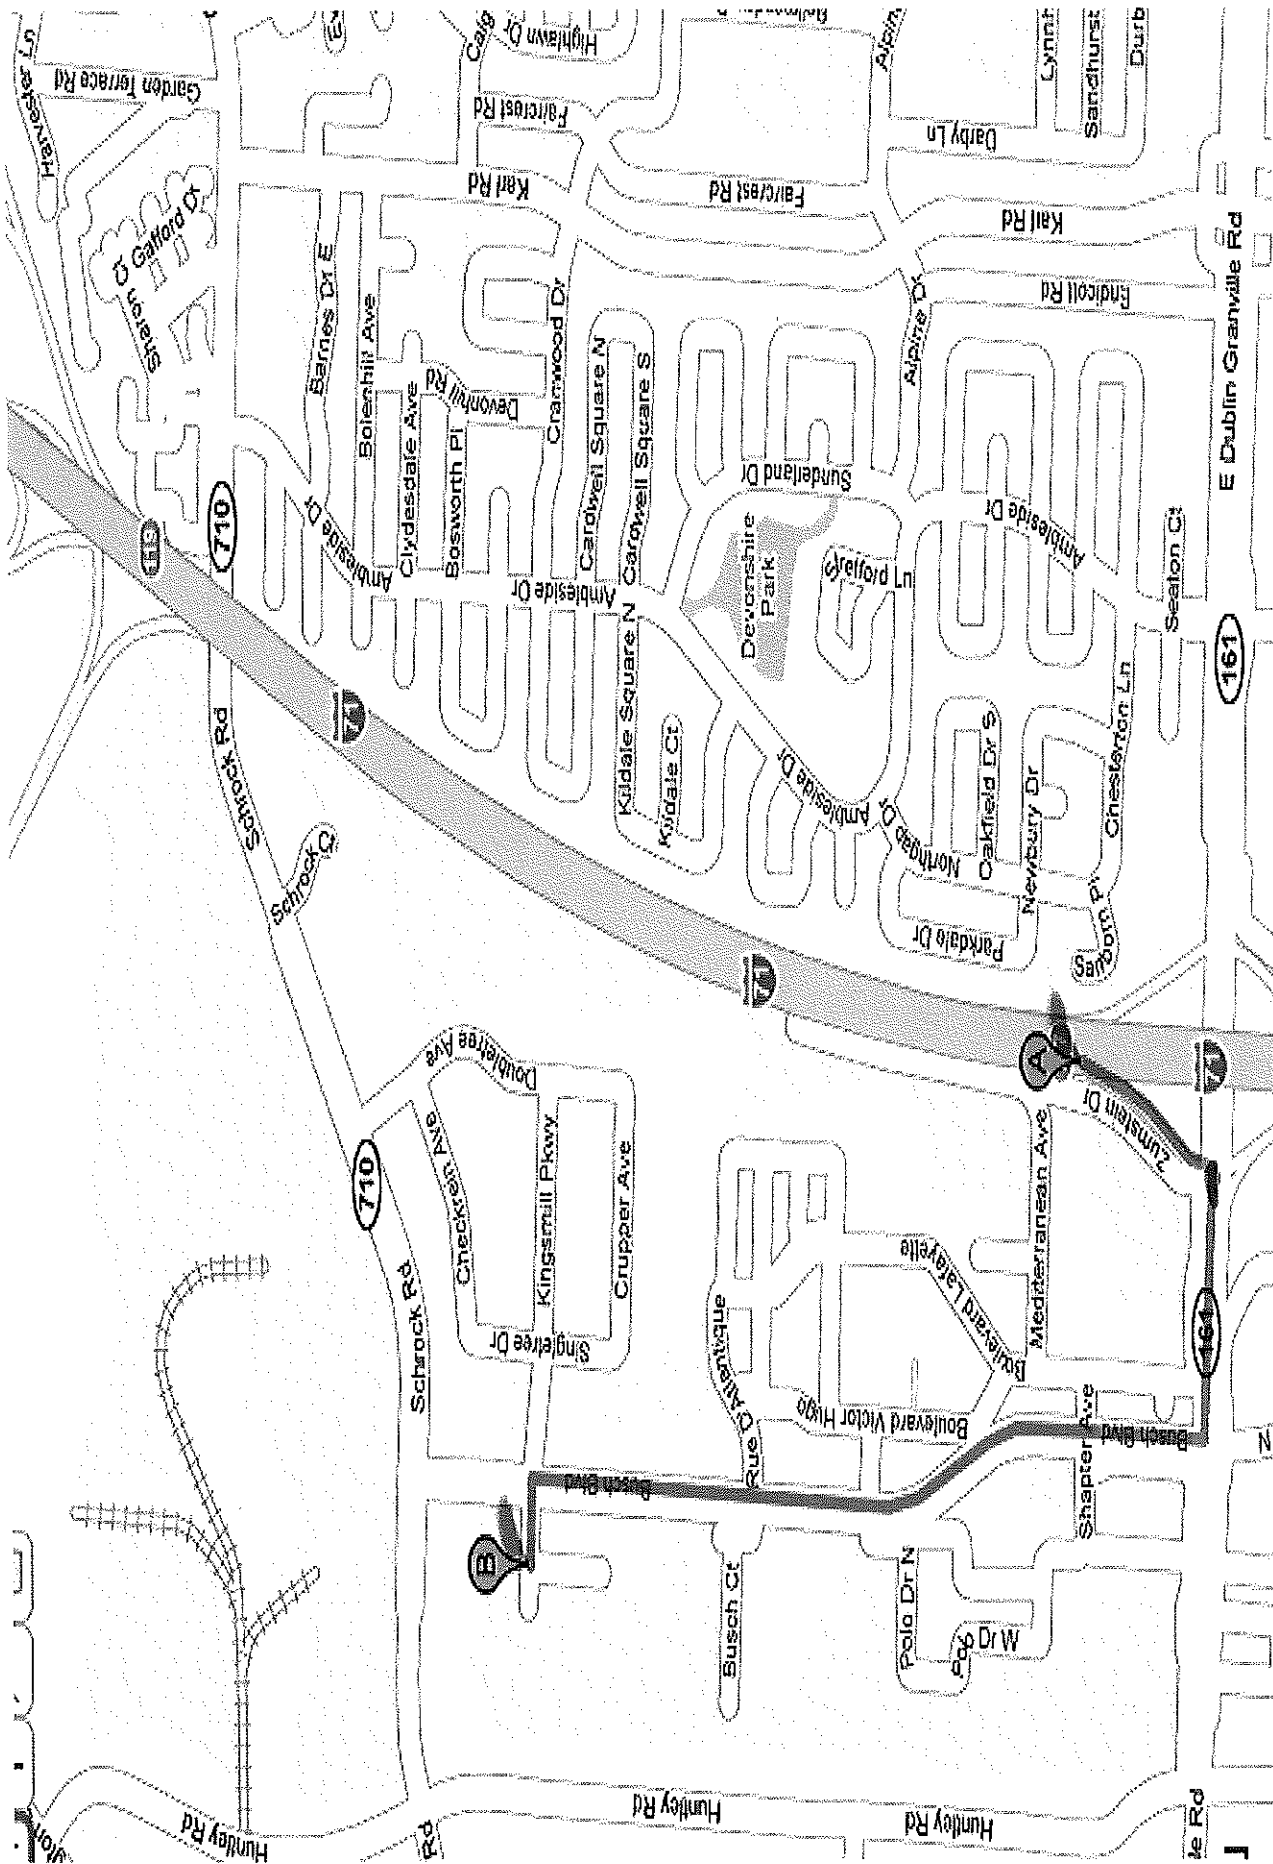

Herb has an electronics engineering degree from Morehead State University and has a computer science degree from Franklin University.

PLEASE RSVP to Howard Jones by email to [hrjones @aep.com](mailto:hrjones@aep.com) or by phone at 614-552-1107 by 5:00 pm, November 10, 2008
or Ajit Kadakia by email <Kadakia@scp.utilities.com> or by phone at 740-689-6225 by 5:00 p.m. November 10, 2008

Advise when you RSVP, if IEEE Member and/or P.E.

IEEE Members and guests are cordially invited to attend
